SB—Who We Are

- **Who We Are**
  - Integrated team in 6 geographic locations
  - Part of the AF and AFMC SB Offices

- **AFLCMC Small Business Office Mission:**
  - *Maximizing innovative, agile, and efficient small business solutions to the world’s greatest Air Force*
SB—What We Do

• AFLCMC SB core purpose: *Support the Warfighter*
  – Encourage program offices to seek & consider small business solutions when they make cost, schedule, and/or performance sense

• Counsel Contractors
  – Match AFLCMC needs with Contractors meeting those needs
  – Coordinate inquiries and guidance requests

• Promote effective In-Reach & Outreach Programs

• Advocate for the mission while promoting SB alternatives
• Register your business:
  • Obtain a DUNS Number
    • Free of charge for Government Contracting and Grants
  • System for Award Management (SAM)
    • Consolidated system for federal procurement
    • No cost to companies, https://www.sam.gov
  • Your local PTAC and SBA representatives can assist w/ these tasks

• Search for contracting opportunities:
  • Federal Business Opportunities, https://www.fbo.gov
Doing Business w/ AFLCMC

• Know the rules of Federal Government contracting
  • Keep abreast of changes in laws and regulations
  • [http://farsite.hill.af.mil/](http://farsite.hill.af.mil/)
  • FAR Part 19 – Small Business Programs

• Submit well-prepared quotes or proposals

• Pointers to Small Businesses:
  • Respond to Sources Sought Synopses
  • Consider teaming in order to strengthen capabilities
  • Consider subcontracting opportunities-perform well
  • Watch for/attend local Small Business Events posted on FBO.gov
How Businesses Can Help Themselves

• Assist the Govt w/ mandatory market research
  • Mandatory for actions over $10K
  • Market research is key to understanding our marketplace
  • Key to knowing who the Small Businesses are in our North American Industrial Classification System (NAICS) code
How Businesses Can Help Themselves

• Why SBs should respond to sources sought, RFIs and/or draft RFPs:
  • If the rule of two is met, the Contracting Officer (CO) may set aside that contract for restricted competition
  • Better market intelligence can allow the CO to make an informed decision regarding:
    • Whether subcontracting opportunities exist
    • What SB goals are reasonable/attainable for the prime
  • Formulating a response early on allows more opportunity to communicate with the CO
How Businesses Can Help Themselves

- The AF is looking for ways to **break out larger contracts**
  - Allows SBs to **compete/prime on part of requirements**
  - Must be **capable** of performing at a **fair and reasonable price**

- What SB can do to communicate this might be feasible:
  - Add your name to the “Interested Vendors” List on FBO-notices
    - Be sure the information the system pulls in here from SAM is accurate and complete
  - Respond to sources sought, RFIs and draft RFPs
  - Attend Industry Days
    - Even if your capability isn’t broken out, you may meet a prime willing to include you on their proposal for the overall effort
Searching on FedBizOpps

- Default is 90 Days
- Also search by NAICS
- To Search for SB Events
Subcontracting Opportunities

- Opportunities on large, OEM prime contracts
- Not set-aside? Must evaluate SB participation
- Look for teaming partners at events, industry days, and on FBO!

Hot Topics
Limitations on Subcontracting

- Effective 8 Jan 2019, use FAR Clause 52.219-14, Limitations on Subcontracting (DEVIATION 2019-O0003)

- So what changed?
  - Added “Similarly situated entity” (SSE): a first-tier subcontractor, including an independent contractor, that has the same small business program status as the prime contractor for the award and that is considered small for the NAICS code the prime contractor assigned to the subcontract the subcontractor will perform.
  - Added “Independent contractors”: considered a subcontractor
  - Percentages now based on total contract value (to include first-tier subcontractors that are similarly situated) versus only personnel cost
    - Services = 50% not SSE, any work SSE subcontracts counts toward 50%
    - Supplies = 50% excluding materials, not SSE, any work SSE subcontracts counts toward 50%
  - Added Joint Ventures must agree to the %’s above for the “aggregate” of the joint venture participants
Nonmanufacturer Rule

• What is a Manufacturer? (13 C.F.R. § 121.406(b)(2)(i)(b)):
  – The concern which performs the primary activities in transforming organic or inorganic substances, including the assembly of parts and components, into the end item being acquired

• What does Nonmanufacturer mean? (see FAR 19.001)
  – “A contractor under a small business set-aside or 8(a) contract shall be a small business under the applicable size standard and shall provide either its own product or that of another domestic small business manufacturing or processing concern (see 13 CFR 121.406)”

• What does Nonmanufacturer mean? (see FAR 19.001) Cont’d
  – In laymen’s terms, “the Nonmanufacturer Rule” (NMR) allows an otherwise responsible business concern to be awarded a procurement contract to supply a product – even though it is not the manufacturer or processor of the product – as long as it meets certain conditions (Small Business Act - 15 U.S.C. §631).
Nonmanufacturer Rule, cont…

• The NMR Applies to:
  – SB set-asides (Total and Partial) above the SAT
  – 8(a), HUBZOne, SDVOSB, WOSB and EDWOSB at ALL dollar values
  – Only applies to manufacturing and supply acquisitions with certain assigned NAICS codes
Nonmanufacturer Rule, cont…

• Exceptions: (see FAR 19.102(f)(7))
  – If procurement of a manufactured end product processed under the procedures set forth in Part 13 (not exceeding SAT):
    • Is set aside for small business; and
    • Is not anticipated to exceed $25,000, and
  – The offeror supplies an end product that is manufactured or produced in the United States or its outlying areas

• Potential Waivers: (see FAR 19.102(f))
  – If no known domestic small business manufacturers or processors can reasonably be expected to offer a product meeting the requirements of the solicitation
Subcontract Reporting

• Requirement - FAR Clause 52.219-9, per FAR 19.708(b):
  – “In solicitations and contracts that offer subcontracting possibilities
    • Expected to exceed $700,000 ($1.5 million for construction of any public facility)
    • And are required to include the clause at FAR Clause 52.219-8, Utilization of Small Business Concerns
    • Unless the acquisition is set aside or is to be accomplished under the 8(a) program”

• FAR Clause 52.219-16, Liquidated Damages --Subcontracting Plan
  – In all solicitations and contracts containing FAR Clause 52.219-9, Small Business Subcontracting Plan, or the clause with its Alternate I, II, III, or IV
  – Failure to make a good faith effort to comply with the subcontracting plan may result in the assessment of liquidated damages
